

SECURITY GRILLES

SG500

SG500

STEEL

The SG500 security diffuser is recommended for minimum security applications. It is excellent for areas where minimum security is needed but maximum performance is required. The SG500 features the Tuttle & Bailey M-Series steel diffuser with a heavy duty lattice face (shipped loose for field mounting). The diffuser is available in square or rectangular configurations and 1, 2, 3 or 4-way air patterns. Screw holes are provided in the lattice face plate. Tamper proof (security) screws are provided by others.

FEATURES

- Face Plate: 12 gauge steel with 13/16" square holes and 3/16" wide frets (screw holes provided in face plate, screws provided by others)
- Diffuser: Tuttle & Bailey model M-Series steel diffuser, surface mount margin style
- Square or rectangular configuration (3" increments of width & height)
- 1, 2, 3 or 4-way air deflection pattern (specify when ordering)
- Steel construction
- Standard finish is white (WH) or mill (ML)

ACCESSORIES

- Rear angle frame (RF) 1-1/2" x 1-1/2" x 3/16" steel angle frame with 1/4" x 20 N.C. weld nuts (bolts provided by others)
- Steel opposed blade damper (SDFO - face operated) shipped loose for duct mounting
