

GRILLES & REGISTERS

Transfer & Door Grilles DXFR, ADXFR Series

DXFR

STEEL

ALUMINUM

DXFR / ADXFR transfer grilles have fixed horizontal “V” shaped louvers on 1/2” centers. The louvers are arranged to overlap each other to be sight tight when viewed from any angle.

The “V” shaped louvers maintain a large, effective free area. The smooth edges on the louvers present a linear face appearance which is easily maintained. Constructed of steel (DXFR) or aluminum (ADXFR), the grilles maintain rigidity and are resistant to damage.

FEATURES

- Steel (DXFR) or Aluminum (ADXFR) construction
- Furnished with countersunk screw holes and mounting screws.
- Louvers are mechanically fastened into the side margins for extra strength
- “V” shaped louvers spaced on 1/2” centers
- Standard finish is White (WH)

ACCESSORIES

- Auxiliary Frame
