

VPER

Sight Proof Eggcrate Design

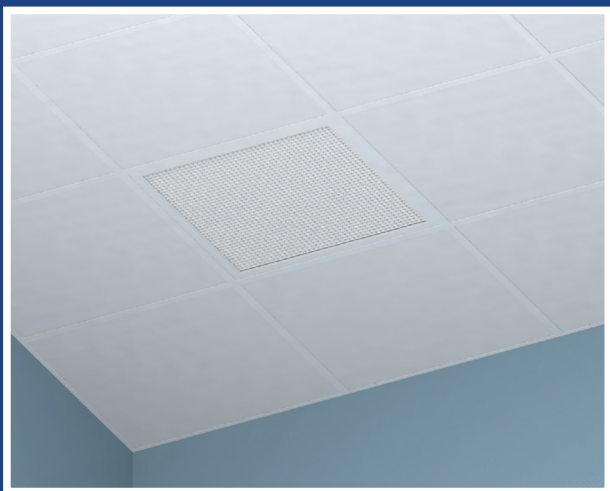

Hides Unsightly Objects in
Walls and Ceilings from View

MRI
COMPATIBLE

HUMID
AREAS

Installed Ceiling View

The VPER is an all aluminum return grille with an eggcrate core at a 45° deflection angle that prevents line of sight through the grille. Get the benefit of an attractive look which hides the plenum or the duct behind it without the use of a light shield or plenum.

- ~ Extruded Aluminum Margin
- ~ Aluminum Grid Core: 1/2" Cube with 45° Deflection
- ~ 92% Free Area
- ~ Lay-In Applications
- ~ Standard finish is White (WH)
